

## RGA8 33m Auto Descent Fall Arrest Block

**Accredited To:** EN 341 & EN360

**Material:** 5mm Galvanised steel cable

**Connectors:** Double action High tensile steel alloy

**Weight:** 14.5kgs

**Features:** Fall indicating connector. Auto Descent after fall.

**Max Fall Arrest Load** <6KN

Similar to the RGA7, the RGA8 also has the benefit of a longer cable length of 33mtr. The RGA8 has an extra feature of an automatic descender that will activate in the event of a fall and automatically lower the user to the ground.

**Not suitable for use in horizontal mode.**
