

RGK28 Special Feet for Tripod

Accredited to: N/A

Material: Alloy

Weight: 0.5 kg

Size : 100mm diameter

The RGK28 is an alternative foot that can be used on the RGR1 tripod. And gives a more positive holding on smooth surfaces.

The standard foot assembly which is supplied as standard is simply removed from the bottom section leg and replaced with this foot type, it only takes a few minutes.

Supplied as a set of three.
