

RGR7 50m Rescue Winch

Accredited to: EN 1496 A&B

Cable Spec: 5mm Galvanized Steel Wire Rope

Connector: Double action. High tensile steel alloy

Weight: 21.5 kg

Features: Clutch locking mechanism. Rapid retrieval/ lowering of cable

Gear ratio: 1 : 8 : 9

Size mm: L 220 x W 350 x D 220

SWL: Max 200 kg

The RGR7 is fitted with an up/down clutch locking mechanism. Manufactured from steel with a baked enamel finish, the RGR7 has a 50cm per handle turn allowing for rapid retrieving/lowering of cable. This unit has many applications such as confined space entry, manholes and chemical vessels, etc.

The operative can be winched up or down to safety almost immediately. As most rescue systems lower the casualty, the RGR7 can raise the operative to safe area, if the area below is unsuitable.

The RGR7 is most commonly fitted to the RGR1 tripod for use in the confined access industry, as it can lower a worker into an area where no ladders are fitted.

The RGR 7 has a working length of: 50 metres

(For details of daily inspection procedures, see the info sheet)
